

# POSTER SESSION GUIDELINE

DECON – International Conference on Nuclear Decommissioning and Waste Management

With this document we provide information for students and PhDs interested in participating in our Poster Session as part of the Young Generation program. More information about the DECON conference in general and the Young Generation session in particular are available on

<https://www.nucdecon.com/young-generation>

---

## *Introduction*

---

Young Generation with its poster session is an integral part of the DECON event. Participants from all around the world and many professionals in the field of nuclear physics, nuclear engineering and the nuclear industry will be on the DECON platform during and after the

DECON conference taking place on

November 2<sup>nd</sup> – 3<sup>rd</sup> 2022

Whether you want to introduce your project to the international nuclear community, find like-minded people, communicate with professionals, inform yourself about the current labor market and future perspectives, or expand your relationships, both locally and globally. The DECON platform is the place you are looking for.

By participating, you will not only have the chance to win one of our three poster awards. More importantly, you will have the opportunity to present your project to competent participants. You may even be addressed by others with beneficial possibilities for your future career.

---

## The Young Generation Hall

---

With our Young Generation Hall, we offer the young generation its very own space. Here you can present your project to participants and get in touch with other students as well as experts.

We are committed to provide all participants of the DECON equal free access to all areas to maximize networking capabilities. Thus, company representatives can visit the young generation hall, gain insight to student projects and find young potentials. Likewise, students can enter the exhibition and meet prospective employers.

---

## The Poster Session

---

As an online event the DECON offers exciting ideas for poster presentation. Individual posters can be equipped with multimedia content (e.g., your CV, detailed information or videos) for an interactive experience. You can even embed a guided presentation to playback for viewers even in your absence. Be creative! The poster hall can be visited by all participants of the DECON and interested viewers can leave comments or establish contact to poster owners.

---

## How can I participate in the poster session?

---

After [registration](#), contact us about your interest to participate in the poster session. Next, download the [poster templates in our download area](#) to set up your poster and upload it to our [Dropbox](#). The poster templates serve as an orientation format. You are also welcome to use your own design. If your poster is accepted, we will offer you access to your personal poster board. The poster board is your personal space on the DECON platform in your web browser to set up your poster to your liking. It offers a simple user interface to display your project optimally with little effort. Here, you can upload and modify your poster, and even integrate multimedia content for an interactive experience, like audio or video related to your project, modeled animations or a guided presentation for viewers in your absence.

Poster templates for the DECON 2021 poster session available in our [download area](#)

---

## Are there restrictions concerning the poster subject?

---

Due to the fact that the conference is addressing the nuclear community, the subject must fit the field of nuclear decommissioning and waste management. Take a look at our [DECON program](#) for orientation. Inappropriate content will be excluded from the DECON platform at any time.

---

## Is there a deadline for poster submission?

---

For reasons of preparation, we need to set a deadline for poster submission. Posters will be arranged according to the order of registration.

Deadline for poster submission

September 16<sup>th</sup> 2022

---

## How much is the participation and how do I benefit?

---

**You can benefit in multiple ways by participating in our Young Generation program.**

As participant of the poster session, you will have the opportunity to present your project to competent participants on an international stage. You may even be addressed by others with beneficial possibilities for your future career. Moderated live programs including company presentations and poster sessions will actively support initial contacts.

If your poster is one of the top-ranked posters a moderated live session is offered to you, allowing you to comment your project and answer questions of a live audience. If your poster is rated as the Top3 you will even win one of our three poster awards.

### 1<sup>st</sup> Prize – 3 weeks nuclear expert coaching

You will get three weeks coaching by a nuclear expert. This coaching includes three exclusive sessions, where your actual status is analyzed in respect to your further professional career development. You want to work in the nuclear industry, focus on a scientific career or want to start-up your own business. No problem, you will get advice and discuss with the expert your personal perspective.

### 2<sup>nd</sup> Prize – Business talk with an expert of the nuclear industry

You will have the opportunity to speak one-on-one with a decision-maker in the nuclear industry and learn valuable first-hand information. To prepare you for this interview, you will receive an introduction from us. In the interview with us, we will also prepare you to ask the right questions and to present yourself optimally in a pitch.

### 3<sup>rd</sup> Prize – Voucher in the amount of 175 euros

For your studies you will regularly buy books or hardware. With the voucher from Amazon in the amount of 175 euros, you can buy the right product at your own choice. We wish you much success with it.
